Vendor Exhibition: As part of USF’s continued mission to actively pursue opportunities for small, minority, service-disabled veteran, and women business enterprises seeking to transact with the USF System, we are inviting a select group of these businesses to exhibit their goods and services. We encourage financial stakeholders among USF’s departments, academic units, and prime contractors, as well as, others committed to furthering USF’s diversification efforts, to attend and meet face to face with representatives from these businesses to discuss present and future opportunities to forge lasting relationships, promote economic progress, and strengthen the USF community.

Purchasing Presentation: After the Vendor Exhibition, Purchasing Services, in collaboration with our new Assistant Vice President of Supplier Diversity, will give a presentation on our recent efforts and future plans to improve supplier diversity across the USF System. This presentation will be geared primarily towards the questions and interests of small, minority, service-disabled veteran, and women-owned businesses, but members of the USF community are welcome to attend.
